The District Comprehensive Improvement Plan (DCIP) is designed to help districts consider the conditions within the District that need attention.

The DCIP provides the District with the opportunity to reflect on the way in which the schools within the District are organized to promote achievement. NYSED strongly encourages districts to take a deeper look at relevant data across the District to best support the District’s ability to identify specific solutions for their unique needs. This process involves:

- Reviewing the District’s vision, values, and aspirations
- Reviewing previous commitments made by CSI/TSI schools in the district
- Evaluating the impact of COVID-19
- Considering the effectiveness of previous planning
District Comprehensive Improvement Plan (DCIP)

- All Target Districts will work with stakeholders to consider existing needs and determine next steps for the upcoming school year. Target Districts with identified schools should also incorporate insights from the school improvement planning process into the DCIP developed. The final DCIP is submitted to NYSED for approval.

School Comprehensive Education Plan (SCEP)

- Any school identified for Comprehensive Support and Improvement (CSI) or Targeted Support and Improvement (TSI) will work with stakeholders to develop a School Comprehensive Education Plan (SCEP) for the upcoming school year.
District Comprehensive Improvement Plan

**Priorities**

- Develop each school’s mission and establish a process for ongoing school improvement in alignment with the District Mission and Strategic Plan; build professional capacity to model and operationalize the mission at every level of the organization.

- Build a culture of inquiry and data study K-12 with a strong focus on outcomes and achievement that supports the whole child.

- Distribute leadership and share accountability between and amongst stakeholders at each school building and at the district level.

- Develop a comprehensive vision for high quality instruction that includes differentiation and personalized learning at the elementary, middle and high schools to create a collaborative school environment, rich with cooperation, teamwork, shared ownership, and distributed leadership.

- Create a culture of inclusivity to provide all students with fair, just and personalized learning and growth opportunities.

School Comprehensive Improvement Plan

**Priorities**

- Develop a comprehensive vision for high quality instruction and assessment that includes differentiation and personalized learning at Port Chester Middle School.

- In our school of nine academies, which embrace our vision of “Success for Every Student,” Port Chester Middle School has sought to review curriculum and grading policies to focus on access, alignment, and focus on differentiating and personalizing instruction. At each grade level, there are three academies that collaborate across disciplines. We will review the data for all staff and students and each grade level after each quarter to inform instruction. This commitment allows for leaders and teachers to monitor curriculum and student progress.
