You are invited to receive and participate in our

**Port Chester VEGETABLE GROW BAGS**

Vegetable grow bags are strong sacs filled with soil, that we can grow crops like cucumbers, cilantro, tomatoes, tomatillos, peppers and lettuce in!

We are giving away up to 300 grow bags to support gardening and healthy fresh food in our community of Port Chester.

Each family or person can receive 2-3 growbags to take care of in your back or front yard, your porch, balcony or if you have no space - you can keep your bags at the middle schools learning garden.

Please submit a grow bag request form online by March 29th
