Section I: General Considerations and Planning Guidelines

Purpose

Emergencies in schools are defined as undesirable events that occur and have the potential to cause injury or illness to members of our school community or disrupt the orderly educational process. They range from acts of bullying or harassment to catastrophic natural or man-made events. Emergency management is the discipline of dealing with and avoiding risks. It is a discipline that involves preparing for an emergency situation or disaster before it occurs as well as supporting and rebuilding from the emergency after natural or human-made disasters have occurred.

Emergency management in our schools is the continuous process by which our staff, students, administrators, parents, school groups, emergency responders and our community manage hazards in an effort to avoid or mitigate the impact of disasters resulting from the hazards. Preventive measures and good planning will reduce the likelihood that emergencies will occur and allow us to address those that do in an expeditious and effective manner.

Districts are required to develop district-wide school safety and emergency management plans designed to prevent and effectively manage such events to minimize the effects of serious incidents and emergencies. These plans also facilitate the coordination of the District with local and county plans and resources when incidents and emergencies occur.

The district-wide plan is responsive to the needs of all schools in the District and is consistent with the more detailed building-level emergency plans. Districts are vulnerable to a wide variety of acts of violence, and natural and manmade disasters. To address these threats, the State of New York has enacted the Safe Schools Against Violence in Education (S.A.V.E.) law. Project S.A.V.E. is a comprehensive planning effort that addresses prevention, response, and recovery with respect to a variety of emergencies in schools.

The Port Chester Union Free School District supports the S.A.V.E. legislation. As such, the Superintendent of Schools, Board of Education, and the entire District staff encourages and advocates on-going district-wide cooperation in support of Project S.A.V.E.
Dr. Aurelia Henriquez, Superintendent of Schools (see State Requirements), will serve as the District’s Chief Emergency Officer (CEO) whose duties shall include, but not be limited to:

1. Coordination of the communication between school staff, law enforcement, and other first responders;
2. Leading the efforts of the district-wide school safety team in the completion and yearly update of the district-wide school safety plan and the coordination of the district-wide plan with the building-level emergency response plans;
3. Ensuring staff understanding of the district-wide school safety plan;
4. Ensuring the completion and yearly update of building-level emergency response plans for each school building The CEO will require each building principal to maintain a Building-level Emergency Response Plan in compliance with Commissioner of Education Regulation 155.17(2). Each plan should be updated annually with the assistance of the Building Emergency Response Team (BERT). The plan shall provide for lockdown, lockout, sheltering, evacuation, early dismissal, fire and other emergency planning and notification (when necessary) to students and staff, annual drills and exercises, and coordination with local and county emergency preparedness administrators. These plans shall be submitted to the District’s Safety Team for annual approval and incorporation into the overall District-wide Safety and Emergency Management Plan.
5. Assisting in the selection of security related technology and development of procedures for the use of such technology;
6. Coordination of appropriate safety, security, and emergency training for district and school staff, including required training in the district-wide school safety plan and building-level emergency response plan;
7. Ensuring the conduct of required evacuation and lockdown drills in all district buildings as required by Education Law section 807, and
8. Ensuring the completion and yearly update of building-level emergency response plans by the dates designated by the commissioner.
9. Ensures protocols for responding to a declared state disaster emergency involving a communicable disease are substantially consistent with the provisions of Section 27-C of the Labor Law.

---

9 155.17(1)(c)(ix) the designation of the superintendent, or superintendent’s designee, as the district chief emergency officer whose duties shall include, but not be limited to:

15 155.17(c)(1)(ix)(f) coordinate appropriate safety, security, and emergency training for district and school staff, including required training in the district-wide school safety plan and building-level emergency response plan(s);
16 155.17(c)(1)(ix)(g) ensure the conduct of required evacuation and lock-down drills in all district buildings as required by Education Law section 807
17 155.17(c)(1)(ix)(h) ensure the completion and yearly update of building-level emergency response plans by the dates designated by the commissioner
The District-wide Safety and Emergency Management Plan was developed pursuant to Commissioner’s Regulation 155.17(b)(13) and NYS Education Law 2801-a\textsuperscript{18}. The duties of the team shall include the development, review, and update of the District-wide Safety and Emergency Management Plan in compliance with Commissioner of Education Regulation 155.17. The District Safety Team should meet regularly throughout the year to conduct the following business:

Section II  Risk Reduction/Prevention and Intervention

Prevention and Intervention Strategies

The District utilizes a variety of intervention strategies to reduce risk and prevent critical incidents.

1. The District utilizes trained multidisciplinary Threat Assessment Teams (a.k.a. Behavioral Assessment Teams) at each building to evaluate threats and implement the appropriate mitigation strategies. The District provides support and record keeping for the activities of each team.

2. The District utilizes a multidisciplinary Behavioral Threat Assessment Team provided by SW BOCES and St Joseph’s Crisis Prevention and Response Team (914-925-5959) that assesses whether certain exhibited behaviors or actions need intervention or other support. The Behavioral Threat Assessment Team is available to the district whenever a threat is identified and requires evaluation.

3. The District Safety Team engages in table top exercises to discuss their roles during an emergency and their responses to a sample emergency situation.

4. Any utilized school safety officers and other security personnel are trained annually with the assistance of one or more of the following collaborative relationships:
   - Emergency Responders
   - Regional BOCES
   - District Consultants

5. Training for school staff working in an incident control capacity may include:
   a. Individual and group de-escalation techniques
   b. Non-violent conflict resolution skills and
   c. Peer mediation

6. The District may provide de-escalation techniques and nonviolent conflict resolution training to other staff annually. Each building has some staff trained in nonviolent conflict resolution.

7. Training may be available during staff development sessions, on conference days and via on-demand web-based training modules.

---

25 155.17(c)(1)(iii) appropriate prevention and intervention strategies, such as:
(a) collaborative arrangements with State and local law enforcement officials, designed to ensure that school safety officers and other security personnel are adequately trained, including being trained to de-escalate potentially violent situations, and are effectively and fairly recruited;
(b) nonviolent conflict resolution training programs;
(c) peer mediation programs and youth courts; and
(d) extended day and other school safety programs

26 155.15(4)(1)(xiv)(2) Tabletop exercises may be utilized by school and district safety teams as a training resource and may include a discussion-based activity for staff in an informal classroom or meeting-type setting to discuss their roles during an emergency and their responses to a sample emergency situation.
8. Procedures relating to building security including utilization of staff and security equipment are as follows:  

1. All authorized staff members are expected to carry their classroom/office keys/swipe cards/Key Fobs at all times.
2. All staff members are expected to wear District-issued photo identification badges.
3. After the designated start time of the school day, each school will be appropriately secured.
4. All visitors must report to each building’s designated single point of entry, be screened through the visitor management screening system, and issued a visitor’s pass before proceeding further into the building.
5. All contractors assigned to work in any building must first be authorized by the Facilities Department. Once authorization has been received, the contractor is to proceed to the building’s designated single point of entry, be screened through the visitor management screening system, and issued a visitor’s pass before proceeding further into the building. All deliverables and delivery personnel must first be authorized by the Facilities Department, prior to delivery. An exception for regular food service deliveries may be made after the vendor has been authorized for the school year.
6. The District has executed Memorandums of Understanding (MOU) with Security Provider as required by NYS Regulation.
7. Extended day and other school safety programs - The district school buildings and facilities provide a valuable resource to our students and community after the conclusion of the school day. The following strategies are utilized during after-school hours:
   1. To the degree possible, access to areas of the school building is limited to only those needed for activities.
   2. Some buildings may use a modified point of entry.

The District continually investigates other security measures and conducts staff development training to ensure schools are as safe as possible. Security measures include:

   a. Security personnel
   b. Surveillance cameras
   c. Door-lock (buzzer) entry systems

27. 155.17(b)(1)(xi) policies and procedures relating to school building security, including, where appropriate, the use of school safety officers and/or security devices or procedures;

**IMPROVING COMMUNICATION WITH STUDENTS**

Each of the schools within the district provides a wealth of school safety-related initiatives aimed at improving communication among students, between students and staff, and between administration and parents or persons in parental relation. These programs may include the establishment of youth-run programs, creating a forum or designating a mentor for students, peer mediation, bullying prevention, conflict resolution, social skills development, managing emotions and components of character education. Students are involved in a wide variety of safety activities through both their classes as well as through work with school counselors, social workers, and school psychologists. By October 1st of each school year, the superintendent and chief school administrator have provided written information to all students and staff about emergency procedures.

Each building has established a mechanism for the anonymous reporting of school violence and harassment and has communicated this to students and parents.

The school district’s Code of Conduct is accessible to parents and students and reviewed with all students at the beginning of the school year. During the review with students, bullying, discrimination, harassment and violations of the Code of Conduct, along with consequences are discussed.

All staff members are trained in recognizing and effectively dealing with these behaviors, as outlined in the Code of Conduct.

In addition, each school has a wide range of programs and supports that impact school safety. These may include offering a variety of clubs, classroom lessons, small group lessons and/or individual counseling sessions, school-wide meetings, morning meetings in classrooms, assemblies, mindfulness rooms, yoga and movement breaks, and a variety of wellness opportunities.

**REPORTING THREATS OR ACTS OF VIOLENCE**

Students, staff, parents and others are informed annually about the importance of reporting threats or acts of violence and the procedures of reporting.

The District has developed a system for reporting threats and actual acts of violence. The procedure for reporting is as follows:

Evacuations made necessary by the unplanned activation of the fire alarm system or by any other emergency shall not be substituted for a required evacuation drill.

Prior to the commencement of each school year, the Building-Level Emergency Response Planning Team shall conduct an inventory of any special needs students. Appropriate accommodations for the school year will be incorporated into each Building-Level Emergency Response Plan.

**Early Dismissal Drill**

The District will conduct an Early Dismissal drill annually wherein students are dismissed no more than 15 minutes before the normal dismissal time. Parents will be notified of these drills at least one week prior. Transportation Officials and District staff may also take place in conducting and evaluation of this drill. This drill also allows the District to test the usefulness of the communications and transportation system during emergencies.

Each school district and board of cooperative educational services shall, at least once every school year, and where possible in cooperation with local county emergency preparedness plan officials, conduct one test of its emergency response procedures under each of its building-level emergency response plans, including sheltering, lock-down, or early dismissal, at a time not to occur more than 15 minutes earlier than the normal dismissal time.
43 155.17(h)(2) Such drills shall test the usefulness of the communications and transportation system during emergencies.
In addition to post-drill debriefings conducted by each building-level emergency response planning team, each building will complete a drill evaluation form that will be submitted to the district-wide safety team for periodic review, which includes observations from the drill as well as any additional feedback obtained from building personnel. Changes to procedures are made as needed. The district-wide safety team should evaluate communications and transportation systems during emergencies.44

Each Building-level Emergency Response Planning Team and representatives of the District administration engage in tabletop exercises facilitated by the district’s emergency management consultant. Emergency response agencies are encouraged to participate in these exercises. The district may opt to conduct functional exercises with emergency response agencies to involve staff, students and parents in realistic drills. Such exercises may not include students without written consent from parents or persons in parental relation.45 The school board will ensure that information about drills be provided in the teacher’s manual or handbook.46

Parents and persons in parental relation will receive timely notification regarding drills and any other emergency response training(s) that include students.47

A summary of drill procedures are detailed in each of the Building-Level Emergency Response Plans.

Staff Development Training:

All general staff will receive training on District-wide procedures as well as specific procedures contained within their respective building-level emergency response plan. This training shall occur prior to September 1549 of each school year or within 30 days of joining the district. Additional training may include but is not limited to:

- De-escalation training
- Warning signals for violence and mental health concerns
- Non-violent conflict resolution
- Student School Emergency Response Procedures Training

**PROACTIVE BUILDING SECURITY MEASURES**

1. The District buildings use limited points of entry. All doors are locked. Signs are in place directing visitors to sign-in at the reception desk at each school. Main doors are controlled by remote “buzzer” entry during normal school hours.

2. All schools have greeters, security guards, hall monitors or office staff members just inside the entrance to each school in the District. These individuals ensure visitor sign-in procedures and help supervise building traffic flow. The building principals are responsible for supervision of the greeters and other staff.

3. Staff members are required to wear visible identification badges.

4. Visitors are required to sign in and wear visitor identification.

5. Visitor access is limited to specific areas of the school building.

**VITAL EDUCATIONAL INFORMATION**

Information on each building’s students and staff, transportation needs, and the telephone numbers of key officials are outlined in each Building-level Emergency Response Plan. The purpose of including such information in the Building-level plan is to ensure coordination or coverage in the event of a serious incident.

**EARLY DETECTION OF POTENTIALLY DANGEROUS BEHAVIOR**

This section contains the District policy and procedure for disseminating information regarding early detection of potentially dangerous behavior.

---

155.17(h)(i) Except in a school district in a city having a population of more than one million inhabitants, the chief executive officer of each educational agency located within a public school district shall provide to the superintendent of schools information about school population, number of staff, transportation needs and the business and home telephone numbers of key officials of such educational agencies.

155.17(c)(1)(xii) Policies and procedures for the dissemination of informative materials regarding the early detection of potentially violent behaviors, including but not limited to the identification of family, community and environmental factors to teachers, administrators, school personnel including bus drivers and monitors, parents (and) or other persons in parental relations to students of the school district or board, students and other persons deemed appropriate to receive such information;
1. A “plain language” summary of the District’s Code of Conduct is provided to all students in the District at the start of every school year to ensure that all students understand acceptable behavior in the school setting. The Code of Conduct delineates, among other behavior, lack of tolerance for harassment, discrimination, bullying and violence.

2. A “plain language” summary of the District’s Code of Conduct is mailed or emailed to all parents/guardians of students in the District at the start of each school year, and is disseminated at the time of registration thereafter.

3. All new employees will be provided with a copy of the Code of Conduct at the time of hire. All teachers and other staff members will be provided with a copy of the Code of Conduct annually.

4. Efforts are made on the building level in each of the District’s schools to identify, prevent, and resolve potentially dangerous behavior at the earliest possible stage. Teams meet regularly in each building in order to work with classroom staff in identifying and preventing potentially dangerous behavior. School counselors, school psychologists, school social workers, nurses, outside agencies (when appropriate), administrators, teachers, bus drivers and monitors, parents/guardians and students may be involved in this process.

5. District students at all grade levels participate in instruction guided by evidence-based violence prevention/intervention programs. Elements of these programs support students in identifying potentially violent or problematic situations with peers and in developing strategies to address these such as reporting to an adult.

6. Secondary health curricula incorporate information regarding emotional health, the impact of drugs and alcohol on an individual’s behavior, and on responsible decision-making.

7. Each of the District’s school psychologists/social workers may facilitate counseling groups for identified students around issues related to poor social skills development, managing emotions, and good decision-making.

8. Certified and noncertified staff members working with students who have been identified by the Committee on Special Education as being at-risk for engaging in violent behaviors receive annual training in crisis prevention and intervention.

9. The District may work in collaboration with building-level and District-wide PTAs to offer parents/guardians information regarding early-warning signs of potentially dangerous and/or violent behavior, as well as a forum to discuss specific parental concerns.

2. These sites of potential emergencies will be listed in each Building-level Emergency Response Plan supplied to police, fire, emergency management services, and District personnel.

3. Potentially dangerous sites indicated below that are contained within school property and under the jurisdiction of the school district, will be checked regularly and inspected by building safety personnel on a regular schedule, at least annually. They include but are not limited to:

   - Electrical panels/shut-offs
   - Gas lines/shut-off

**School Safety Personnel Allocations, Hiring, Duties, and Training**

**Private Security and School Resource Officers**

This plan includes contracts or memoranda of understanding that define the relationship between the district, personnel, students, visitors, law enforcement, and public or private security personnel. These contracts or memoranda are consistent with the Code of Conduct, and define the roles, responsibilities, and involvement in the schools of law enforcement or security personnel. The role of school discipline is delegated to school administration.

District Memorandum(s) of Understanding related to this section are maintained in the District office.

School safety personnel will help carry out the District-Wide School Safety Plan and may include anyone in the school community. These individuals have received appropriate annual training as required under the Regulation. Such training has been conducted in cooperation with the Police Department. These individuals are not to be confused with school security guards that we employ who are regulated under the New York State Security Guard Act that requires specific training, fingerprinting and background checks. All our Security Guards receive 8-hours of pre-assignment and 16-hours of in-service training along with an additional 8-hours of annual refresher training. Our contracted security company (KH Briger) is a New York State licensed agency and all our security guards are also individually licensed.

Appropriate school building security measures and procedures have been determined by the District-Wide School Safety Team and Building-Level Emergency Response Team after review of school building procedures and practices, emergency response plan, code of conduct, security surveys/audits, and building-level climate surveys. Based on these findings we have implemented the following security measures:

- Entrance guards who received 2 days of staff development every school year.
- The School District has had a security audit/assessment of all school buildings in conjunction with our Building-Level Emergency Response Team.
- Visitors to the building will be questioned prior to entry into the building as to their business and if they have an appointment. If there is any question, the building principal will be consulted. If this has been confirmed, they will be admitted to the building where they will sign-in and be escorted to their destination. Upon completion of their business they will be escorted out of the building.
- Visitor badge/sign-in procedures. Upon entry into the building, the visitor must show a valid Government issued identification. After clearance, the visitor is issued an adhesive badge and escorted to their destination. Anyone in the building without an adhesive

- Random searches may be considered if deemed necessary.
- We will employ any other methods deemed necessary and constantly review our current practices.

**Security Allocations**

A. At the **elementary and middle school level**, there is a single point of entry for visitors at each building and visitors to the school must be buzzed into the building, sign in and receive an identification badge issued by a safety greeter, hall monitor or security guard. Staff in the building all wear district-produced identification badges and lanyards which must be worn at all times. Staff is trained to report to the main office any person they observe who is not wearing a badge.

B. At the **high school level**, there is a single point of entry for visitors, which is staffed during normal school hours by one of several staff members or safety personnel/hall monitors assigned to the High School. Visitors to the school must be buzzed into the building, sign in and receive an identification badge issued by a safety greeter/hall monitor. Staff in the building all wear district-produced identification badges and lanyards, which must be worn at all times. In addition, safety personnel are assigned to areas throughout the building.

SECTION III  RESPONSE

NOTIFICATION AND ACTIVATION - INTERNAL AND EXTERNAL COMMUNICATIONS

Internal

After receiving the information from the Incident Commander at the scene, an email will be sent from the Superintendent’s office to all administrators and administrative offices alerting them to the nature and status of any incident in the district. The mass communication system may be used to provide information as deemed appropriate by the Incident Commander. Portable radios will also be used when possible.

External

Anyone with knowledge of an emergency event is encouraged to immediately call 911.

The District’s mass communication system will be used to provide information to parents/guardians and emergency contacts. The District website may also be used to provide updated information throughout an incident as deemed appropriate by the Incident Commander. Schools may also use their websites, groups, and hotlines for announcements or updates as directed by the Incident Commander.

When an emergency requires notification of staff, the Superintendent or his/her designee will provide updated information to parents and students through the emergency notification system. Additional information may also be found on the District’s website: https://www.portchessterschools.org/.

During an emergency, all contact with the media will be handled either by the Superintendent or their designee. The media and public will be informed and updated as soon as practicable on all developments in statements released by the Superintendent or their designee. Students, staff and parents should refer all questions and requests for information to the Superintendent in order to assure the release of factual and current information. The Superintendent may refer such requests to the Public Information Officer for response.

By definition, emergency events are unforeseen and unpredictable. The safety of students and staff is the primary focus of all activities surrounding an emergency event. Every effort will be made to contact parents and the general public once the situation has stabilized.

SITUATIONAL RESPONSES

MULTI-HAZARD RESPONSE

In the event of an emergency, a Command Center will be set up at a safe location in collaboration with emergency responders. Each building has specific plans for dealing with a wide range of hazards. Specific response procedures are sensitive in nature and therefore are contained within each confidential building-level emergency response plan.
In each emergency, the building’s administrator will contact the District office for assistance. The District office will provide support as appropriate and deemed necessary by the Incident Commander on the scene (i.e. sending additional mental health resources). The Superintendent or their designee will be the sole contact person for releasing information to the media and for communicating the status of the emergency with other District schools, out-of-district schools, private schools, and outside agencies.  

RESPONSE PROTOCOLS

Written information on emergency response procedures is disseminated to parents, age-appropriate students and staff via email by October 1st annually. This non-sensitive information may also be found on the district website.

SCHOOL CANCELLATION

- The Superintendent or their designee will monitor any situation that may warrant a school cancellation and will make the determination to do so.

- The Public Information Officer will contact local media, post the information on the website and social media sites utilized by the District.

EARLY DISMISSAL

- The Superintendent or their designee will monitor any situation that may warrant an early dismissal and will make the determination to do so.
- The Operations Chief will designate people to arrange transportation for students.

3. The district disseminates educational material, including but not limited to emails and formal brochures, encouraging parents and visitors to tell school staff about any direct or implied threat of violence or actual acts of violence by students, teachers, other school personnel and visitors to the school, including threats by students against themselves.

4. After considering the specificity/generality of the threat or severity of the violent act, the Principal or their designee will determine whether to immediately contact the Superintendent of Schools or the Deputy Superintendent to advise them of the threat, obtain assistance to determine the severity of the threat or report the violent act. The Principal will have the discretion to report minor incidents to the Superintendent verbally and/or in memorandum form after the situation has been resolved.

5. The building administrator will investigate reported threats of violence and will make the determination of disciplinary measures consistent with the District’s Code of Conduct. Chronic offenders may require a behavior plan or contract, close monitoring, and/or police involvement.

RESPONSES TO ACTS OF VIOLENCE

1. The Principal or their designee will determine whether to contact law enforcement personnel. Threats or actions placing students, staff and others in imminent danger require an immediate LOCKDOWN protocol followed by a call to the police and the District Superintendent (if safe to do so). Violent offenses defined in the S.A.V.E. regulations will also require the involvement of the police.

2. The Principal, and/or their designee then determine the appropriateness of directing the Building-level Emergency Response Team to be activated.

A Lockdown is time sensitive and therefore may be requested by any school staff member based on the incident and timely need for the Lockdown. During the Lockdown, all school staff, students, and visitors (including all BERT members) are required to Lockdown in the nearest lockable space and await further instruction, or in some situations, evacuate the campus.

These relationships have been established by participation of local response officials on Building-Level Emergency Response Planning Teams. These individuals and appropriate means of contact are documented in each Building-Level Emergency Response Plan.\(^\text{56}\)

PROTOCOLS FOR A STATE DISASTER EMERGENCY INVOLVING A COMMUNICABLE DISEASE

The following procedures provide a general overview of the District’s response to a State Disaster Emergency and may require modification during an actual event based on a number of factors. The District will follow current guidance from the County Department of Health, State Department of Health and the State Education Department related to masking, distancing, quarantines, and other health-related requirements.

BACKGROUND

In September 2020, Governor Cuomo signed legislation that requires all New York State public employers to adopt a plan for operations in the event of a declared state disaster emergency involving a communicable disease. The new legislation will constitute New York State Labor Law Section 27-c, and serve as a response to the effects of the sudden onset of the COVID-19 pandemic in the Spring of 2020. In addition to 27-C, the following section was added to 2801-a of the Education Law that required additions to the District Plan.

Education Law - 2801-a (m) - protocols for responding to a declared state disaster emergency involving a communicable disease that are substantially consistent with the provisions of section twenty-seven-c of the labor law.

1. All administrators and Building-level Emergency Response Planning Teams members shall complete the incident command training level one.

2. All District Emergency Response Team members shall complete incident command training level one and level two.

**Emergency Remote Instruction**

**Overview**

The District may offer remote instruction days to students in the event-of-an-emergency condition, including, but not limited to, extraordinary adverse weather conditions, impairment of heating facilities, insufficiency of water supply, shortage of fuel, destruction of a school building, or a communicable disease outbreak.

When making decisions about remote instruction, the District will consult with students, parents, teachers, administrators, community members, and other stakeholders as appropriate. When implementing remote instruction, the District will ensure that it is complying with applicable teaching and learning requirements.

**Definitions**

A. "Asynchronous instruction" means instruction where students engage in learning without the direct presence (remote or in-person) of a teacher.

B. "Non-digital and/or audio-based instruction" means instruction accessed synchronously and/or asynchronously through paper-based materials where the student to teacher interaction occurs via telephone or other audio platforms.

C. "Remote instruction" means instruction provided by an appropriately certified teacher who is not in the same in-person physical location as the student(s) receiving the instruction, where there is regular and substantive daily interaction between the student and teacher.
   1. Remote instruction will encompass synchronous instruction provided through digital video-based technology and may also include asynchronous instruction intended to complement synchronous instruction. Digital video-based technology includes online technology and videoconferencing technology.
   2. Remote instruction may encompass non-digital and audio-based asynchronous and/or synchronous instruction where this instruction is more appropriate for a student's educational needs.

D. "Synchronous instruction" means instruction where students engage in learning in the direct presence (remote or in-person) of a teacher in real time.

**Formats and Methods of Remote Instruction**

Remote instruction may be delivered through a variety of formats and methods. Determinations about how to best deliver remote instruction will take into account a variety of factors including, but not limited to, the number of students involved, the subject matter, the students' grade levels, and technological resources of both the District and students. Consideration will also be given to whether accommodations need to be made for students with disabilities or English language learners. Each school's Building-level Emergency Response Plan will contain this confidential information in the Continuity of Instruction Plan (COIP) section.
INSTRUCTIONAL OPTIONS

The District may engage students in synchronous and asynchronous learning on days of remote instruction under emergency conditions with an expectation that asynchronous instruction is supplementary to synchronous instruction. When remote instruction by digital technology is unavailable, appropriate special accommodations for students will be made to aid their learning.

COMPUTER AND CONNECTIVITY ACCESS FOR STUDENTS

The District will ensure that students have the necessary equipment at home to participate in remote instruction. No later than June 30th of each school year, the Superintendent will report to the Commissioner of Education the results of the survey on student access to computing devices and access to Internet connectivity on a form and format prescribed by the Commissioner. The information received from the survey will aid in the development/updates to the detailed Continuity of Instruction Plan in each school's Building-level Emergency Response Plan.

MINIMUM INSTRUCTIONAL HOURS

Remote instruction provided on days when the District would have otherwise closed due to an emergency condition may be counted toward the annual hourly requirement for the purpose of state aid. The Superintendent will certify to the New York State Education Department, on a form prescribed by the Commissioner, that an emergency condition existed on a previously scheduled school day and that the District was in session and provided remote instruction on that day and indicate how many instructional hours were provided on that day and certify that remote instruction was provided in accordance with the District's emergency remote instruction plan.

REMOTE INSTRUCTION SUPPORT

As necessary, the District will provide instruction on using remote instruction technology and IT support for students, teachers, and families. The District will also work to ensure that teachers and administrators are provided with professional development opportunities related to designing an effective remote instruction experience.

59 155.17(xxi)(a) ensure computing devices will be made available to students
60 155.17(f)(2) Beginning in the 2022-2023 school year, each chief executive officer shall report to the Commissioner, no later than June 30 of each school year, on a form and format prescribed by the Commissioner, the results of the survey on student access to computing devices and access to Internet connectivity
**Compliance with District Policies, Procedures, and the Code of Conduct**

Teachers and students are required to comply with any and all applicable District policies, procedures, and other related documents as they normally would for in-person instruction. Examples include, but are not limited to, the District's policies and procedures on non-discrimination and anti-harassment, acceptable use, and copyright. Students will also be required to abide by the rules contained within the *Code of Conduct* at all times while engaged in remote instruction. Violations of the *Code of Conduct* and/or engaging in prohibited conduct may result in disciplinary action as warranted.

**Privacy and Security of Student and Teacher Data**

The District will take measures to protect the personally identifiable information of students and teachers from unauthorized disclosure or access when using remote instruction technologies in compliance with law, regulation, and District policy. Examples of these measures include, but are not limited to, minimizing the amount of data shared to only that which is necessary, de-identifying data, and using encryption or an equivalent technical control that renders personally identifiable information unusable, unreadable, or indecipherable to unauthorized persons when transmitted electronically.

District Support for Buildings

When the Chief Emergency Officer is notified that an emergency exists, he/she will respond accordingly.

Members of the District Safety Team will assist as needed either at their respective Building Command Posts or by responding where directed by the Incident Commander(s). The District Safety Team will assign such other personnel as deemed necessary to meet the needs of the situation.

The District Safety Team members will remain at their assigned posts until the Incident Commander(s) has determined that the emergency is over, or it is unsafe, or no longer necessary to remain, or need to relocate.

Should the incident involve a single building, at the discretion of the District Safety Team leader in consultation with that building’s administrators and Building Emergency Response Team (BERT), other school buildings may be called to support the Building Emergency Response Team in that building.
Should the incident involve multiple buildings, at the discretion of the District Safety Team leader, in consultation with building administrators, additional mental health support from the County Crisis Team and local area hospitals may be solicited to support the Emergency Response Teams in the affected building(s).

In any case, a “debriefing”, or post-incident analysis, will be facilitated by the District Safety Team. This process will include a review of the actual incident, the Team’s response to the incident, and post-traumatic incident debriefing.

District clinicians (or, mental health professionals from outside agencies if they have been involved) will provide ongoing as-needed support to the Team members, and will monitor post-traumatic stress symptoms in team members. As appropriate, team members may be provided with a referral to EAP and/or with information regarding private mental health providers in the area.

Principal(s) are expected to consult with the District Public Information Officer in composing letters to parents following any emergency. The District’s Public Information Officer will assist in sending mass communication messages to affected groups. The District’s Liaison Officer will communicate with outside agencies, such as the County Health Department, to provide necessary services following any emergency.

4. Compensation. For the services described in Paragraph “1” of this Agreement, Contractor shall be compensated for each guard supplied to the School District at the standard hourly rate of 1.35 times the currently applicable prevailing wage rate (e.g., if the prevailing wage rate is $24.58, then Contractor would be paid an hourly rate of $33.18 per guard) and, for any overtime hours worked, Contractor shall be compensated at 1.5 times the standard hourly rate (e.g., if the regular rate is $33.18, then overtime rate is $49.77). Contractor shall pay the security guards assigned to the School District no less than the current prevailing wage rate as defined by the Department of Labor, which shall be demonstrated by the submission of certified payrolls or transcripts of the original payroll record, subscribed and affirmed as true under the penalties of perjury. The overtime rate applies to any hours worked beyond eight hours in the same day and beyond forty hours in a given week. Contractor shall only be paid for the hours actually worked by the personnel it assigns to the School District.

a. Contractor will be notified of any emergency closings of the School District and Contractor shall not bill the School District for those days. No coverage will be required if the School District’s schools are closed and no PM coverage will be required on half day dismissals.

b. Payment pursuant to this Agreement is dependent upon the satisfactory completion of the services by Contractor, faithful compliance with the Agreement by Contractor, and the submission of invoices and certified payrolls or transcripts of the original payroll record, subscribed and affirmed as true under the penalties of perjury following completion of the services in monthly intervals to the School District.

c. Contractor shall not be paid for any scheduled hours and meetings for which Contractor’s officers, employees, owners and/or agents fail to appear no matter the reason for the failure.

d. Except as otherwise stated above, the above compensation is inclusive of any and all of the expenses incurred by Contractor in performing the above-described services for the School District, including, without limitation, for such things as travel, copying expenses, postage, facsimile and telephone charges, mobile/cellular telephone service charges. The above compensation also is inclusive of any fees, fines, licenses, certificates, certifications, bonds or taxes required of or imposed against Contractor or its officers, employees or agents in connection with the performance of the above-described services.

e. There shall be no charge to the students or their families or anyone other than the School District for the services provided pursuant to this Agreement.
5. **Duration.** This Agreement shall be in full force and effect commencing on July 5, 2023 and terminating on June 30, 2024, regardless of when it is actually signed, unless terminated sooner in accordance with the provisions of this Agreement. The Parties may agree to extend this Agreement on an annual basis for the 204-2025, 2025-2026, 2026-2027 and 2027-2028 school years.

6. **Independent Contractor Status.** Contractor and the individuals it supplies shall not be considered as having employee status with the School District. Contractor enters into this Agreement and will remain throughout the term hereof an independent contractor of the School District. Nothing contained in this Agreement shall be deemed to create a partnership, joint venture or other similar relations between the School District and Contractor. Contractor and Contractor’s officers, employees and/or agents are retained by the School District only for the purposes and to the extent set forth in this Agreement. Contractor acknowledges that it will not hold itself, its officers, employees and/or agents out as employees of the School District.

   a. Contractor, its officers, employees and/or agents shall not be entitled to any rights or benefits afforded to the School District’s employees, including, without limitation, disability or unemployment insurance, workers’ compensation, medical insurance, sick leave, retirement or any other employment benefit. Contractor is responsible for providing, at Contractor’s sole expense, disability, unemployment, workers’ compensation and all other forms of insurance, training, permits and licenses for Contractor and for Contractor’s officers, employees and/or agents, if any. Contractor, its officers, employees and/or agents shall not assert any claim for additional benefits of any nature, including, but not limited to, unemployment compensation benefits, by reason of the services to be performed pursuant to this Agreement.

   b. Contractor, its officers, employees and/or agents, shall not be entitled to assert any claim to entitlements pursuant to any collective bargaining agreement now or hereafter in effect between the School District and any of its employees.

   c. The School District shall not be responsible to pay Contractor for any expenses paid or incurred for the services provided under this Agreement unless specifically provided for elsewhere in this Agreement or agreed to in a writing signed by both parties.

   d. As an independent contractor, Contractor retains full responsibility for complying with income reporting and other requirements by federal, state and/or local tax laws. Because Contractor is an independent contractor, the School District will not make deductions from payments to Contractor for income taxes, social security, unemployment insurance, workers’ compensation
or other employment/payroll taxes. The School District will issue a 1099 form at the end of each taxable period for monies paid to Contractor. Contractor shall be responsible for paying, when due, all income or other taxes incurred as a result of the compensation paid by the School District to Contractor for services provided under this Agreement. Contractor will indemnify the School District for any tax liability, interest, and/or penalties imposed upon the School District by any taxing authority based upon the School District’s failure to withhold any amount from the payments for tax purposes.

e. The School District shall make no payments and shall not report the services of Contractor, its officers, employees and/or agents to any State retirement system for purposes of pension credit.

7. **Principal Contact Person.** The principal contact person of the School District shall be the Assistant Superintendent for Business and all correspondence, reports and inquiries regarding this Agreement shall be directed to the Assistant Superintendent for Business.

8. **Invoices.** Contractor will submit an invoice for services rendered on a monthly basis, and payment to Contractor shall be made within thirty days following the date the School District receives the invoice. The invoice shall include the dates on which services were rendered, who rendered the services, a description of services rendered on each date, and the fees payable. Invoices must be accompanied by certified payrolls or transcripts of the original payroll record, subscribed and affirmed as true under the penalties of perjury. If the School District disputes an invoice or any part thereof, the School District shall have the right to withhold payment pending the resolution of such dispute. Payment of any invoice shall not preclude the School District from making claim for any adjustment for services found not to have been rendered at all or found not to have been rendered in accordance with this Agreement. Payment of any invoice shall not be deemed as an acceptance and does not act as a waiver of the School District’s rights or prevent the School District from availing itself of any remedy or course of action it has at law or in equity at a later date.

9. **Right to Examine Records.** The School District shall have the right to examine any and all accounting records of Contractor, its officers, employees and/or agents as they pertain to the services provided pursuant to this Agreement.
10. Termination.

a. This Agreement may be terminated by either party with or without cause upon thirty (30) days prior written notice to the other party. Upon such termination, Contractor shall be paid for all work performed in accordance with this Agreement through the date of termination. Contractor shall not be entitled to any additional payments, whether on account of lost profits or otherwise. In the event of termination, Contractor shall cooperate with the School District in winding down any activities under this Agreement, and all reports, or other documentation due to the School District from Contractor shall be promptly completed.

b. This Agreement may be terminated for cause by the School District in the event of a breach of this Agreement by Contractor (e.g., failing to meet and complete schedules), upon five (5) days’ written notice from the School District to Contractor, unless a shorter period of time is specifically provided for elsewhere in this Agreement. In the event of such termination, the School District shall only be responsible to pay for services actually rendered by Contractor in full compliance with this Agreement prior to the termination and may deduct from such sums owed any costs incurred by the School District as a result of Contractor’s breach. Breach of this Agreement by Contractor authorizes the School District to purchase services elsewhere and charge the full increase in cost to Contractor.

11. Insurance. Contractor shall maintain, in full force and effect, during all times this Agreement is in force, the types and amounts of insurance specified below from an insurance carrier admitted in New York State for the issuance of the type of insurance coverage provided by the policy issued. Contractor shall effectuate the naming of the School District as an unrestricted additional insured on Contractor’s insurance policies, with the exception of workers’ compensation. If the policy is written on a claims-made basis, the retroactive date must precede the date of the contract.

a. Each policy naming the School District as an additional insured shall:

(1) From an A.M. Best rated "secured" insurer, authorized to conduct business in New York State.

(2) Contain a 30-day notice to the School District of cancellation or non-renewal of the policy.

(3) State that the organization's coverage shall be primary coverage for the District, its Board, employees and volunteers.

(4) The School District shall be listed as an additional insured by using endorsement CG 2026 or broader. The certificate of insurance must state that this endorsement is being used. If another endorsement is used, a copy shall be included with the certificate of insurance.
b. Contractor agrees to indemnify the School District for any deductibles applicable to claims made by the School District pursuant Contractor's insurance.

c. Required Insurance:

(1) Commercial General Liability Insurance with limits not less than $1,000,000 per occurrence/ $2,000,000 aggregate.

(2) Automobile Liability Insurance with limits not less than $1,000,000 combined single limit for owned, hired and borrowed and non-owned motor vehicles.

(3) Statutory Workers' Compensation as well as Employers' Liability and N.Y.S. Disability Benefits Insurance for all employees.

(4) Excess Insurance: On a "Follow-Form" basis, with limits of not less than $3,000,000 each occurrence and aggregate.

d. Contractor acknowledges that the failure to obtain the required insurance constitutes a material breach of contract. Contractor is to provide the School District with a certificate of insurance, evidencing the above requirements have been met, prior to the commencement of services under this Agreement. The failure of the School District to object to the contents of the certificate or the absence of same shall not be deemed a waiver of any and all rights held by the School District.

e. The School District is a member/owner of the NY Schools Insurance Reciprocal (NYSIR). Contractor acknowledges that the procurement and maintenance of the insurance required herein is intended to benefit not only the School District but also the NYSIR, as the School District's insurer.

12. Compliance with Law. Contractor shall comply, at its own cost and expense, with all applicable Federal, State, and local statutes, rules, regulations, and ordinances including, but not limited to, the New York State Safe Schools Against Violence in Education (SAVE) legislation, the Protection of People with Special Needs Act (PPSNA), the Federal Family Educational Rights and Privacy Act ("FERPA") and Section 2-d of the New York State Education.

a. Contractor shall obtain and maintain any necessary permits, licenses, registration and/or approvals of governmental authorities that are applicable to the services to be provided pursuant to this Agreement and any that are required by the New York State Department of Education, the Board of Education and/or the School District.

b. Contractor shall adhere to all requirements, protocols, policies and regulations of the School District and the New York State Education Department (including but not limited to the Commissioner of Education) applicable to the services to be provided hereunder.

c. Contractor acknowledges and agrees that it and its employees may be subject to fingerprinting and a criminal history record check as may be required by the
SAVE legislation and other sections of the Education Law of the State of New York. In such event, Contractor agrees to cooperate with the School District and to complete any and all necessary forms or procedures to obtain required fingerprinting and criminal history checks, all at no cost or expense to the School District.

d. Contractor further agrees and understands that all individuals providing services under this Agreement who will have direct contact with students must be cleared by the New York State Education Department prior to providing services to the School District’s students. Appropriate written proof of such clearance shall be provided to the School District prior to such individuals providing services to the School District’s students. In the event that Contractor utilizes an individual who is required to and who has not obtained fingerprinting clearance with the New York State Education Department, the School District shall have the right to immediately terminate this Agreement.

e. Contractor shall comply with all laws and guidance relative to COVID-19 and/or other communicable diseases. Contractor shall perform the services required by this Agreement in conformance with any (1) Federal, New York State or local Executive Order, (2) any New York State Commissioner of Education and/or Commissioner of Health determinations, and (3) guidance issued by the Center for Disease Control and Prevention or any New York State or local department or agency, which Executive Orders, determinations and guidance shall include but not be limited to the cleaning and disinfecting of surfaces, the use of face masks or coverings, the use of proper personal protection equipment, screening, testing, vaccinations, reporting, tracing and social distancing protocols. Contractor’s compliance with this paragraph shall not result in any additional cost to the School District.

f. In performing the Services required herein, Contractor shall be responsible for providing all personal protective equipment for its officers, employees and agents and any other equipment and/or materials reasonably deemed necessary to prevent the spread of COVID-19 and/or other communicable diseases. Contractor’s compliance with this paragraph shall not result in any additional cost to the School District.

13. Indemnification. To the maximum extent permitted by law, Contractor agrees that it shall defend, indemnify and hold harmless the School District, its employees, officers, agents and Board of Education for all loss, costs, damages and expenses, including attorneys’ fees, judgments, fines and amounts paid in settlement in connection with a terminated, pending or completed claim, liability, action, suit or proceeding of whatever name or nature as the same may arise from the intentional misconduct, negligence or recklessness of the services provided by Contractor and its employees, officers, directors, and agents to the School District pursuant to this Agreement,
including but not limited to any act, error or omission, misstatement, misleading statement, neglect or breach of duties by Contractor or any of its officers, directors, agents or employees taken or made with respect to this Agreement. The obligations contained in this paragraph are in addition to and in no way limit or constrain the obligations in the Hold Harmless Agreement notarized on May 24, 2023, which is attached hereto as Exhibit A and incorporated herein by reference.

14. Limitation on Liability. The parties agree that Contractor does not represent and cannot warrant that the services furnished will prevent or minimize the likelihood of loss. It is agreed and understood by the parties that Contractor is not a guarantor of a crime free environment and is not responsible for the criminal or wrongful acts of third parties. Contractor's responsibility is solely limited to providing physical security services and Contractor has not been engaged as a consultant to provide a formal assessment of security needs and or a security audit at the site covered. Contractor's services shall not give rise to or confer any rights on any third party.

15. Work Made for Hire. Any work first developed by Contractor under this Agreement and prepared by Contractor for the School District shall be deemed property of the School District as a work made for hire.

16. Incidents. Contractor shall notify the School District promptly of any problems, situations or incidents that occur during the provision of services.

17. No Discrimination. To the extent required by Article 15 of the Executive Law (also known as the Human Rights Law) and all other State and Federal statutory and constitutional nondiscrimination provisions, Contractor agrees it shall not discriminate against any employee or applicant for employment or individual associated with the School District because of race, creed, color, sex, national origin, sexual orientation, gender identity or expression, age, disability, predisposing genetic characteristics, military status, familial status, marital status, status as a victim of domestic violence or any other basis protected by law. The services provided pursuant to this Agreement shall be provided without regard to a student's actual or perceived race, creed, color, weight, gender, sex, sexual orientation, national origin, ethnic group, religion, religious practice, or disability.

18. No Assignment. Contractor may not assign, transfer, subcontract or convey any of its respective rights or obligations under this Agreement without the prior written consent of the School District, which consent may be withheld for any reason whatsoever or for no reason.
19. **Cooperation in the Event of Litigation.** In the event that any claim, demand, suit or other legal proceeding arising out of any matter relating to this Agreement is made or instituted by any person against the School District, Contractor, shall, at its own cost and expense, provide the School District with all reasonable information and assistance in the defense or other disposition thereof.

20. **Notices.** Any and all notices, demands or other communications required or desired to be given hereunder by either party shall be in writing and shall be validly given or made to the other party if personally served or if deposited in the United States mail, certified or registered, postage prepaid, return receipt requested and addressed to the party, as set forth above. If such notice, demand or other communication is served personally, it shall be effective immediately. If such notice, demand or other communication is given by mail, the same shall be effective when received, but in any event, it shall be effective no later than five (5) days after deposit in the United States mail addressed to the party to whom such notice, demand or other communication is to be given, at the address set forth above. Either party hereto may change its address for purposes of this paragraph by written notice given in the manner provided above.

21. **No Waiver of Default.** No failure by the School District to insist upon the strict performance of any term, covenant, agreement or provision of this Agreement or to exercise any right or remedy upon a breach thereof, and no acceptance by the School District of any services during the continuance of any such breach, shall constitute a waiver of any such breach or of any such term, covenant, agreement or provision.

22. **Cumulative Rights.** The rights and remedies provided by this Agreement are cumulative and the use of one right or remedy by a party shall not preclude or waive the right to use any other remedy.

23. **Entire Understanding.** This Agreement constitutes the entire understanding and agreement between the parties and any and all prior agreements, commitments, understandings and representations are superseded and are of no further force and effect. No amendment, change or modification of this Agreement shall be valid unless in writing, signed by both parties hereto. Only the CEO and President of Contractor have the authority on behalf of Contractor to waive or modify any terms of this Agreement.
24. **Conflicts of Interest.** Contractor hereby warrants that there is no conflict of interest between Contractor's other employment, if any, or other contracts, if any, and the activities to be performed hereunder. Contractor shall advise the School District if a conflict of interest arises in the future.

21. **Governing Law.** This Agreement and all claims relating to or arising out of this Agreement shall be governed by, construed, interpreted and enforced in accordance with the laws of the State of New York without regard to conflict of laws principles. Each of the parties agrees to submit to the jurisdiction of the courts of the State of New York, County of Westchester. As such, the parties agree that any action related to this Agreement shall be litigated in such courts and waives any defense it may have with regards to improper venue or *forum non conveniens.*

22. **Construction.** This Agreement has been arrived at mutually and is not to be construed against any party hereto as being the drafter hereof or causing the same to be drafted. The language in all parts of this Agreement shall in all cases be construed as a whole, according to its fair meaning and not strictly for or against either party. Section headings in this Agreement are for convenience only and are not to be construed as part of this Agreement in any way or limiting or amplifying the provisions hereof. All pronouns and any variations thereof shall be deemed to refer to the masculine, feminine, neuter, singular or plural as the identification of the person or persons, entity or entities may require.

23. **Requisite Provisions.** Each and every provision of law and clause required by law to be inserted herein shall be deemed to be inserted herein and the Agreement shall be read and enforced as though it were included herein, and, if through a mistake or otherwise, any such provision is not inserted or is not correctly inserted then upon the application of either party, this Agreement shall be physically amended forthwith to make such insertion.

24. **Severability.** If for any reason a court of competent jurisdiction finds any provision of this Agreement to be invalid or unenforceable, that provision of the Agreement will be enforced to the maximum extent permissible, and the other provisions of this Agreement will remain in full force and effect.

25. **Record Retention.** Both parties shall comply with all record retention requirements applicable under law to the records pertaining to this Agreement.
26. **Survival.** All provisions of this Agreement that would reasonably be expected to survive the termination or expiration of this Agreement shall do so.

27. **Advertising.** Contractor shall not advertise or publish as a form of an endorsement, the fact that the School District has entered into an agreement with Contractor, without the School District's prior written approval except to the extent necessary to comply with proper requests for information from an authorized representative of the federal, state or local government.

28. **Counterparts.** This Agreement may be executed in counterparts, each of which will be deemed an original, but all of which together will constitute one and the same instrument. Electronic or facsimile signatures shall be deemed valid and binding.

29. **Authority to Enter Agreement.** The undersigned representative of Contractor hereby represents and warrants that the undersigned is the owner or an officer, director, or agent of Contractor with full legal rights, power and authority to enter into this Agreement on behalf of Contractor and to bind Contractor with respect to the obligations enforceable against Contractor in accordance with its terms.
